

Study board conclusions of the semester and teaching evaluation report

Year:	2019
Campus	Copenhagen
Semester	MED7
Coordinator:	Rolf Nordahl
Date:	May 20, 2020

This document represents the public version of the evaluation of the semester. The document forms together with the semester and teaching evaluation report the basis of any adjustments to the semester's description, planning, execution and/or evaluation of the next iteration of the semester and are used by the coming semester coordinator and semester planning group.

The document also represents the study board's response to the students, teachers, coordinators and other interested parties about possible consequences of conditions that the students of the semester have pointed out.

The public conclusions and recommendations of the semester coordinator

The main challenge of this semester is that of a high amount of electives which makes the interaction and coordination challenging for the teachers. Also we see a high amount of new students that have not followed the Medialogy bachelor.

Conclusion of the study board

The Study Board (MSN) has processed the semester evaluation report and offers the following observations/conclusions:

- Student survey response rate: 17/27
- Generally, the semester appears to have run smoothly
- MSN is pleased to note the students' positive evaluation of the Multi Modal Perception course, which in Aalborg is very challenged by negative evaluations. This indicates that the negative evaluation in Aalborg is mainly due to implementation, and not due to a systemic element or to the learning goals of the course, or how it fits into the education as a whole
