Bachelor of Engineering Programme in  
Artificial Intelligence Engineering, 2023, Aalborg /  
P.BA Diplomingeniøruddannelse i design og anvendelse af kunstig intelligens, 2023, Aalborg

This extraordinary meeting was planned for the study board to approve the new Programme in Artificial Intelligence Engineering, starting from September 2023. Assistant Professor Andreas Møgelmoose (AM) was participating in this meeting, to present the study plan.

At the last Study Board meeting a draft of the new study plan was presented and during the last weeks, the final study plan was created.

At this meeting we had a debate regarding the volume and placement of design thinking at the 2<sup>nd</sup> semester. AM explained the work group's thoughts and considerations regarding this topic.

We also had a minor debate regarding electives from different master programmes. Unfortunately, it is not possible to have electives from master programmes in a bachelor programme.

The study board approved the study plan.
