

How would you rate your learning outcome of the project module "Master's Thesis"?

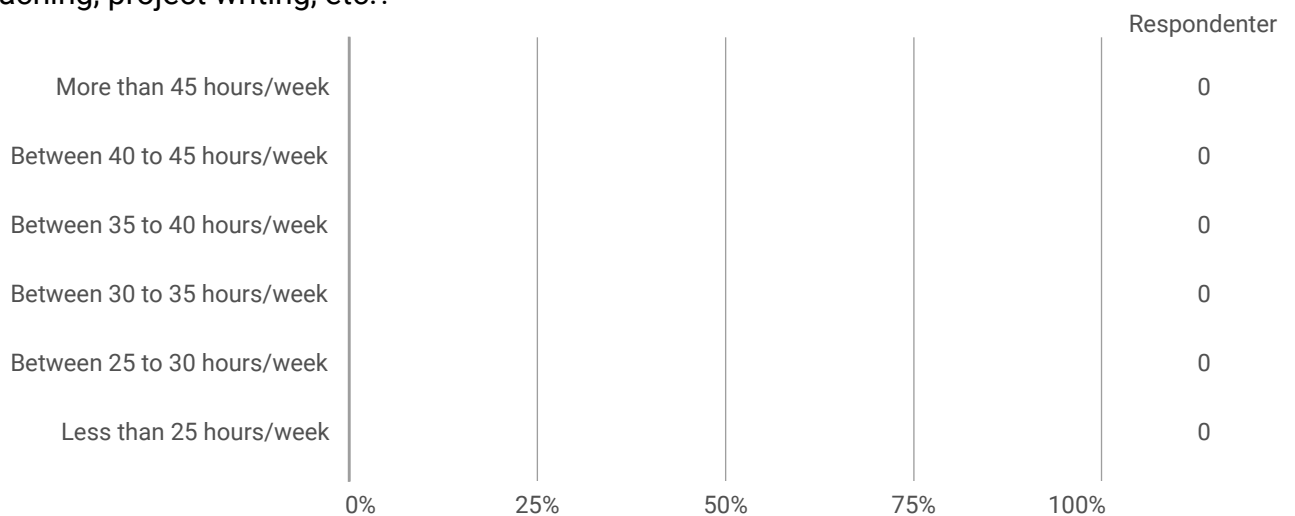

Please comment on your answer

Please make further comments on the positive or negative elements of the above modules. Feel free to add suggestions for course improvement or experiences that were of benefit/no benefit to you throughout the semester.

Level of activity and motivation

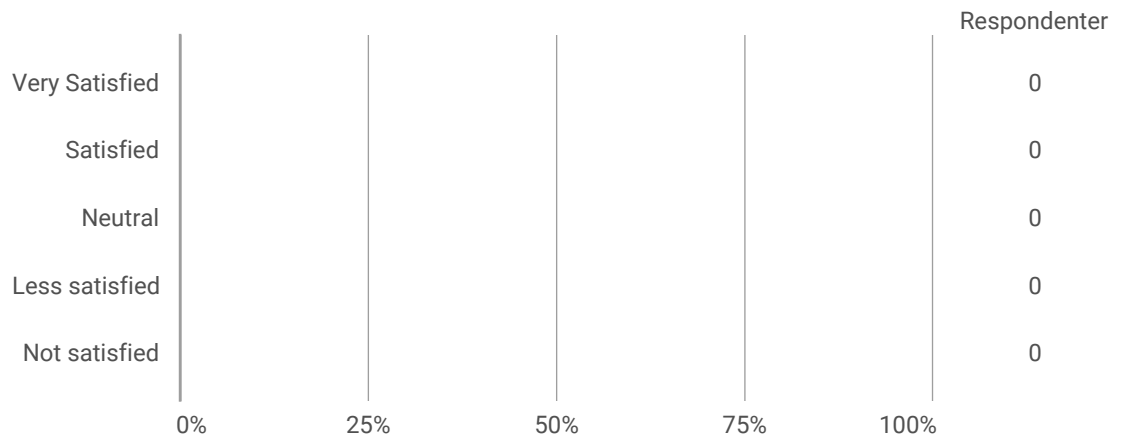

During the semester: How many hours per week did you spend on preparation for and participation in the teaching, project writing, etc.?

Please make further comments on the amount of your own and your fellow students' preparation, motivation and level of activity. Please describe as exactly as possible the problems or positive conditions you have experienced and/or suggestions for improvement that you may have (please state the title of the specific course module(s), etc.).

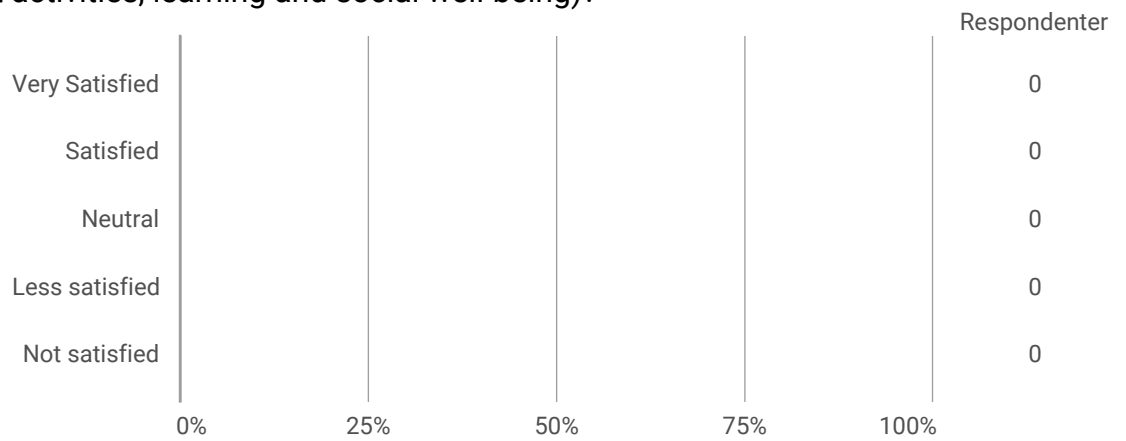

Study environment including physical conditions and frames

How do you experience the physical study environment (health, ergonomics and indoor climate)?

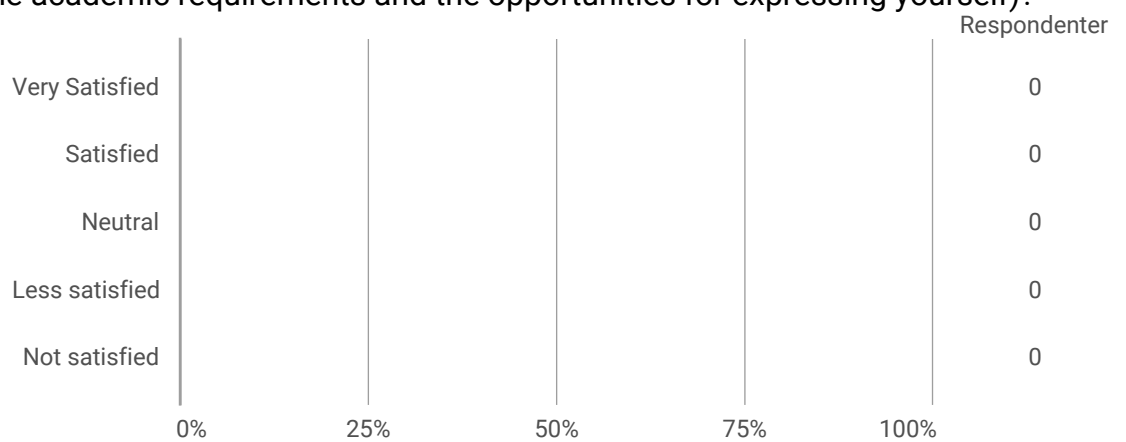

Please make further comment on the physical conditions related to the study environment. Please describe as exactly as possible the problems or positive conditions you have experienced and/or suggestions for any improvement that you may have.

How do you experience the aesthetic study environment (rooms and spaces and the degree to which these support activities, learning and social well-being)?

Please make further comment on the aesthetic study environment. Please describe as exactly as possible the problems or positive conditions you have experienced and/or suggestions for any improvement that you may have.

How do you experience the psychological study environment (relations to your fellow students, your teachers and the academic requirements and the opportunities for expressing yourself)?

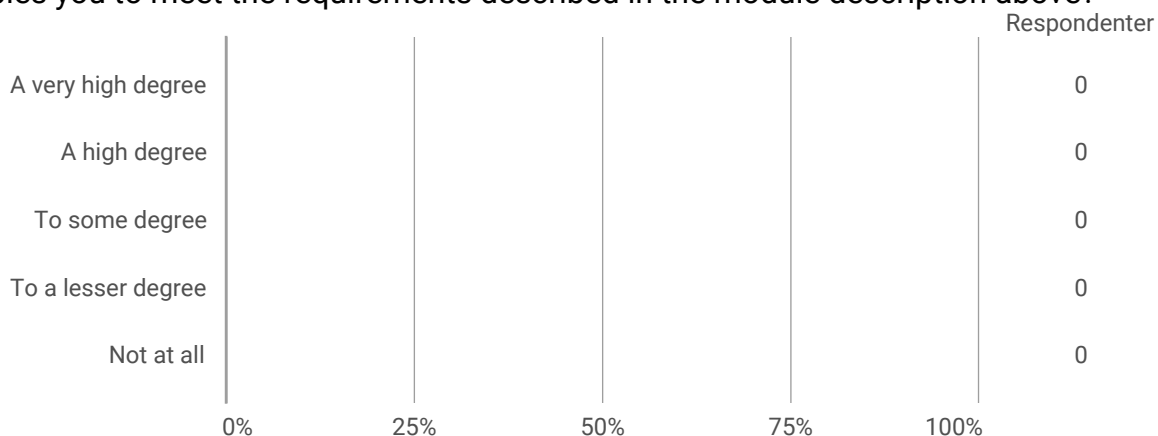

Please make further comment on the psychological study environment. Please describe as exactly as possible the problems or positive conditions you have experienced and/or suggestions for any improvement that you may have.

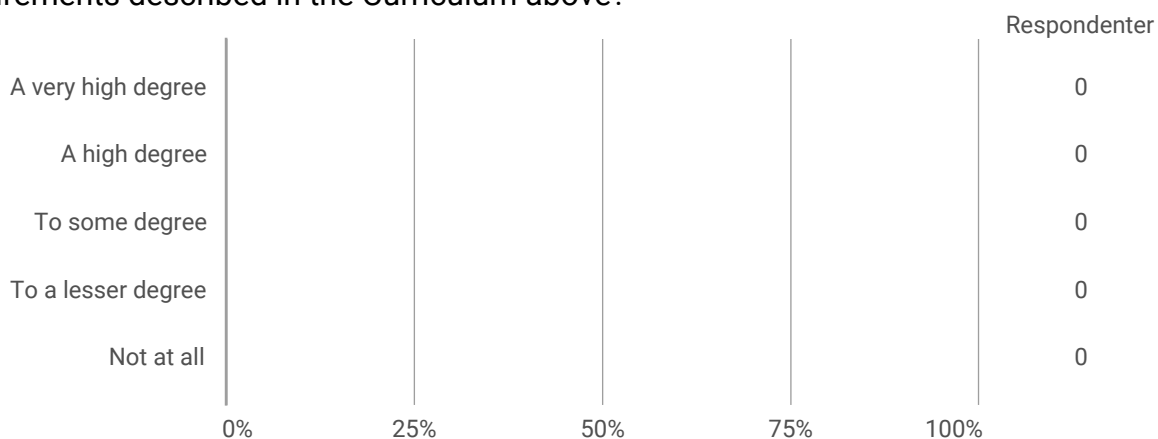

Evaluation of Master's programme

To what degree do you think that the completion of the fourth semester of the master's

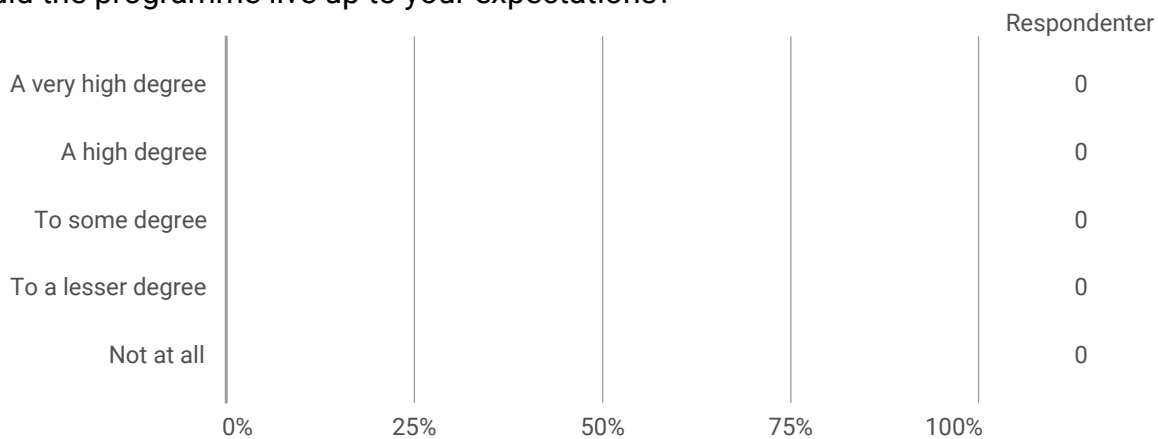

programme enables you to meet the requirements described in the module description above?

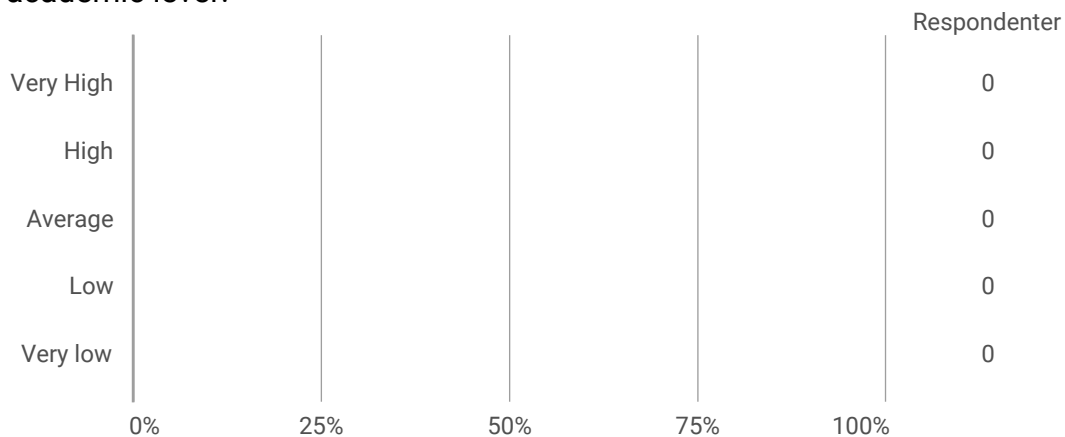

Do you believe that the completion of the four semesters of the master's programme enables you to meet the requirements described in the Curriculum above?

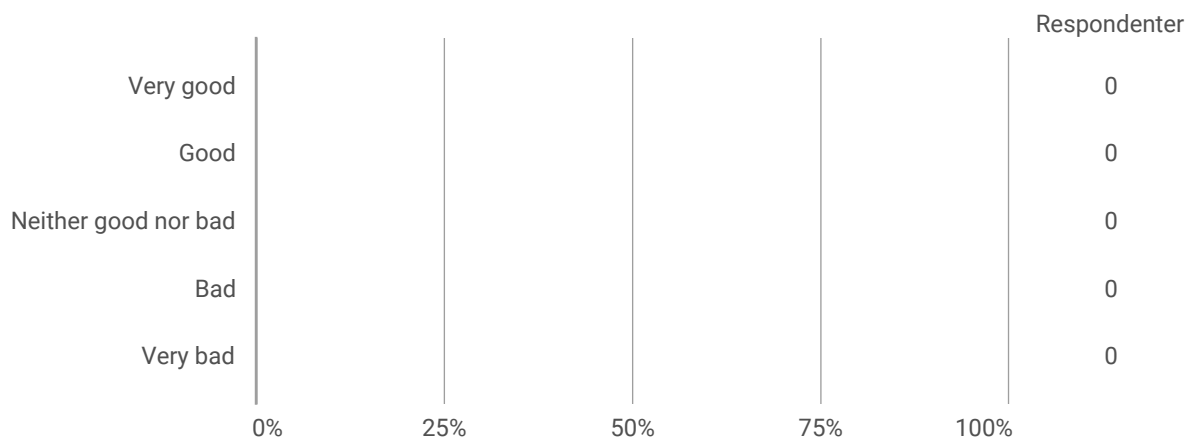

To what degree did the programme live up to your expectations?

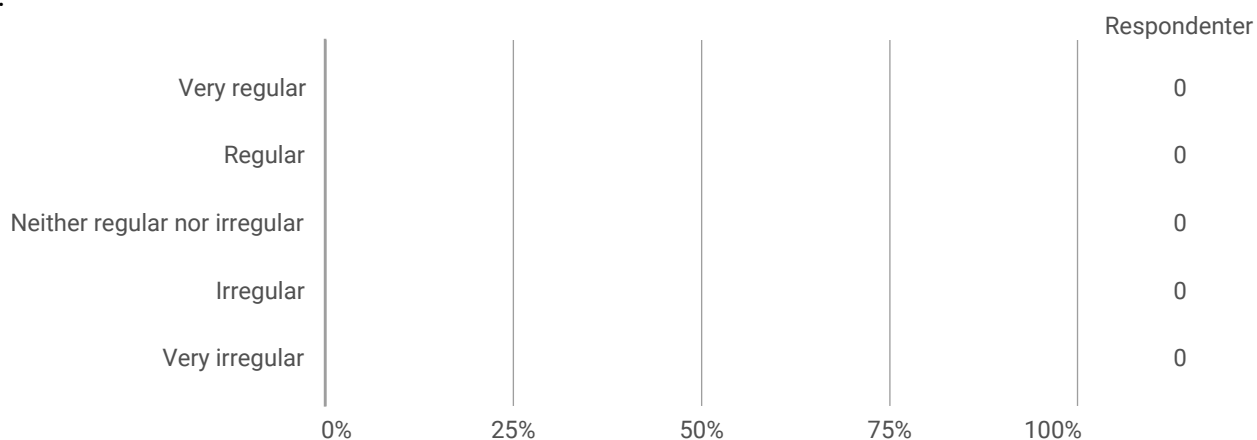

How do you assess the academic level?

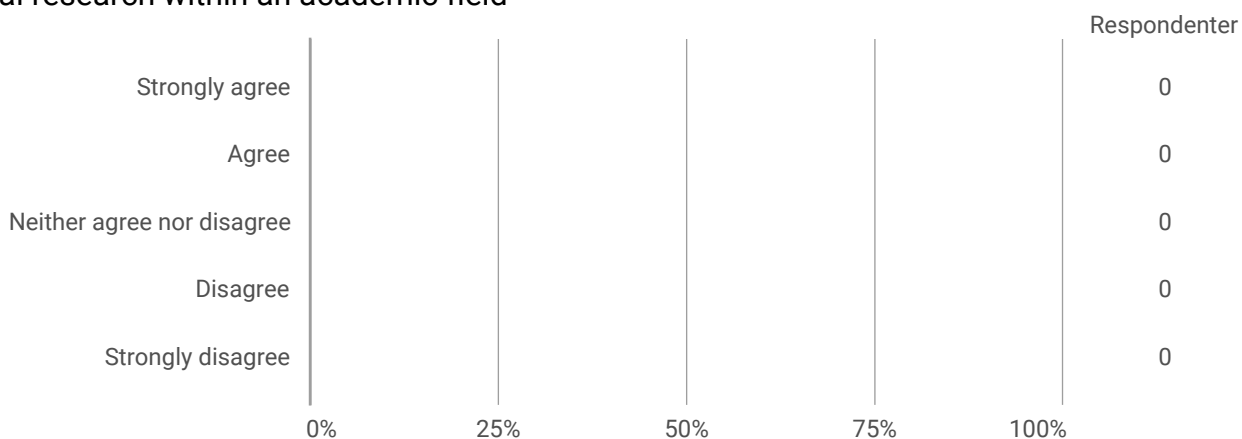

How do you assess the coherence of the programme, within semesters as well as between semesters?

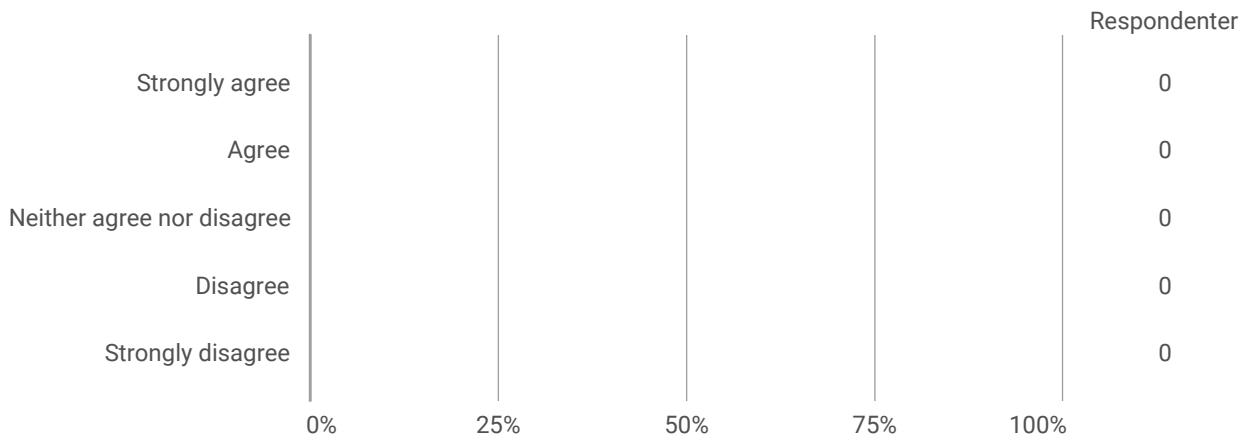

How do you assess the distribution of your study load over the course of study from 1st to 4th semester?

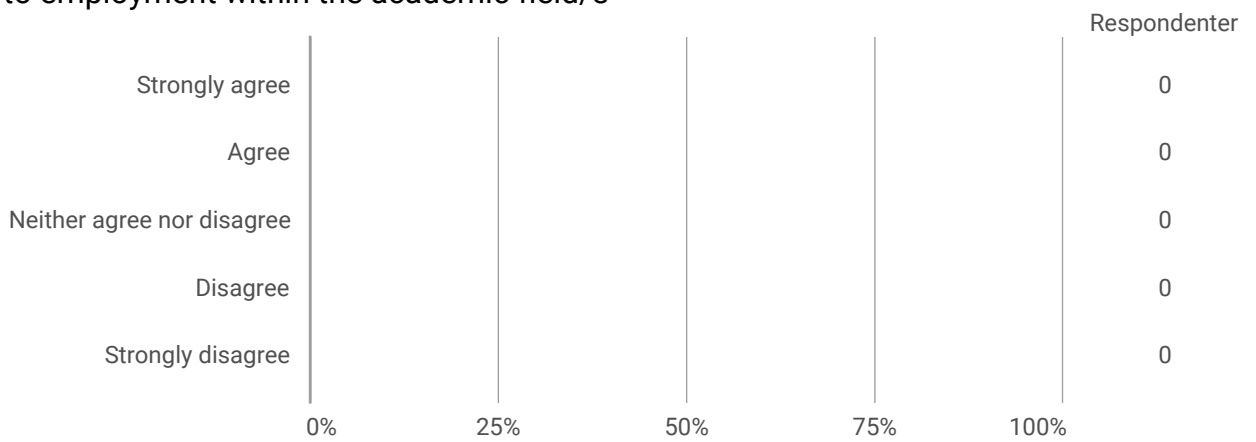

Have knowledge within one or more academic fields, which in certain areas are based on top international research within an academic field

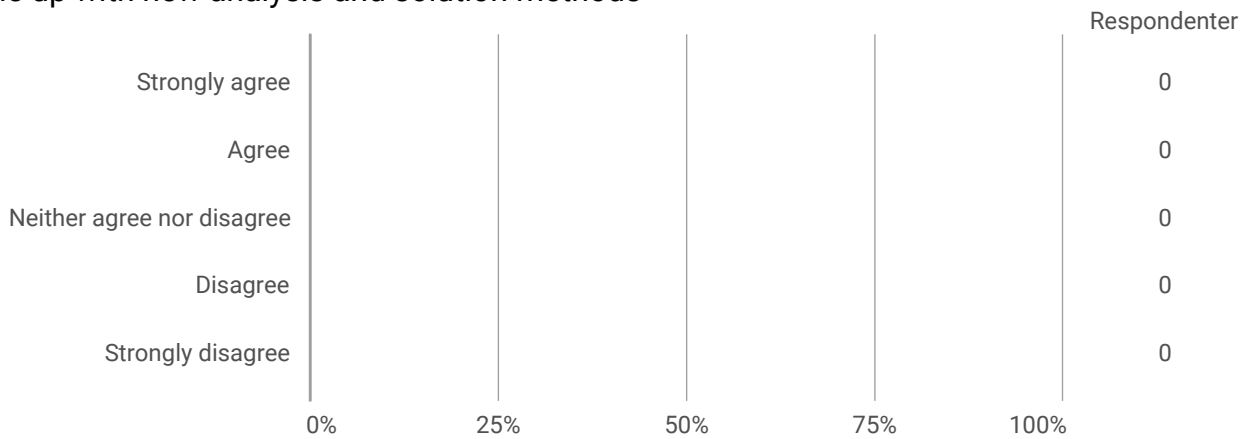

Understand and critically relate to the knowledge of the academic field/s and to identify scientific problems

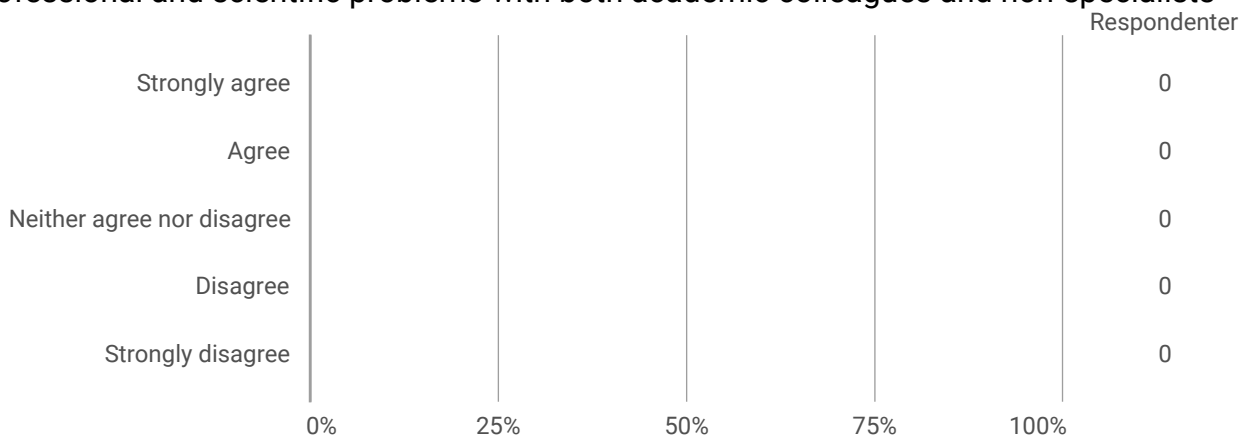

Manage the scientific methods and tools of the academic field/fields and to manage general skills connected to employment within the academic field/s

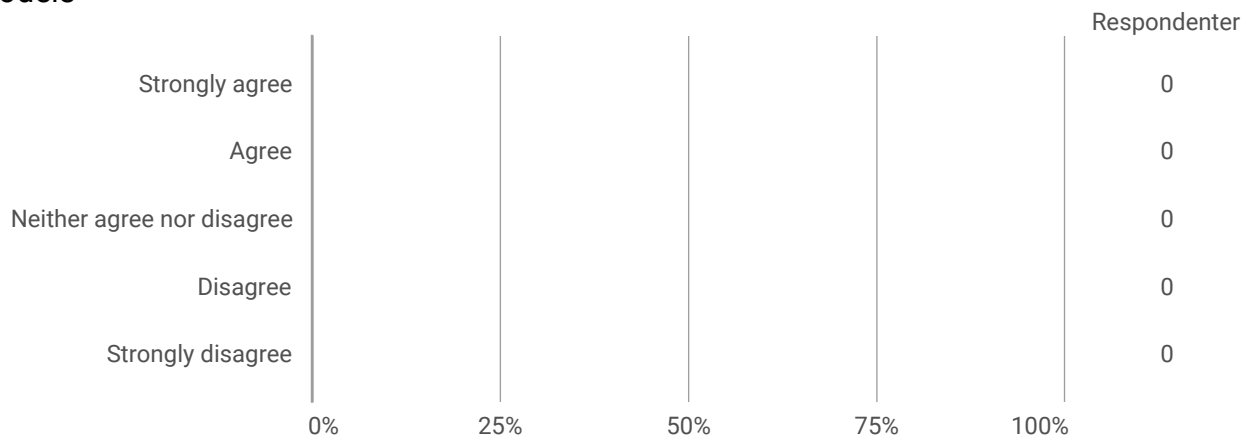

Assess and choose among the scientific methods, tools and general skills of the academic field and to come up with new analysis and solution methods

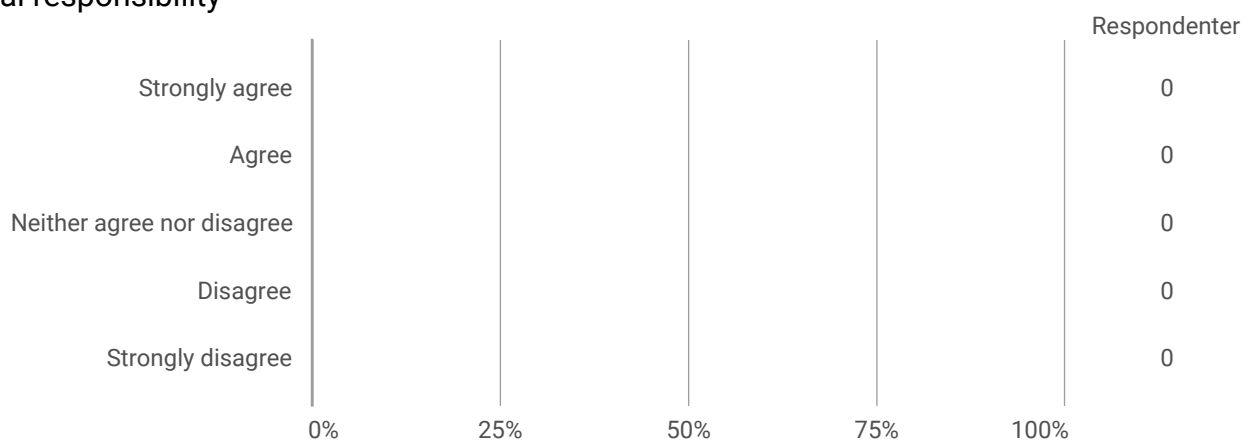

Discuss professional and scientific problems with both academic colleagues and non-specialists

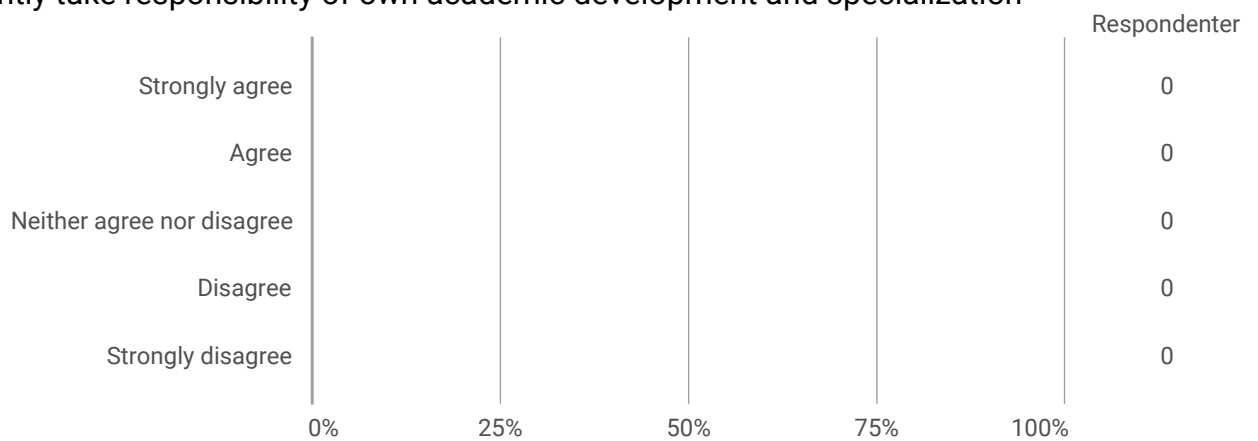

Perform work- and development situations that are complex, unpredictable and require new solution models

Independently initiate and perform academic and cross-disciplinary cooperation and undertake professional responsibility

Independently take responsibility of own academic development and specialization

Samlet status
