

Semesterkoordinators evalueringsrapport for MedIS 4. sem KA
Årstal: 2023 Semesterkoordinator/dato for udarbejdelse af rapport: Simone Riis Porsborg/10-10/23 Antal afholdte styrings-/semestergruppemøder på semestret: 2 Bilag vedhæftet: 0
Studiestart
N/A
Semestret generelt
54% of students report that they have spent less than 35 hours a week on their studies. Participation in the semester group meetings has been non-existent. The feedback on employability-focused elements has been very good.
Projektmodul
38% report that there was no verbal or written reconciliation of expectations with the supervisor at the start of the project and 38% that it has not worked in practice 38% do not think that the communication (oral and written) with the project supervisor(s) has been good 46% do not believe that the Project Supervisor(s) were engaged in the project The board of examiners should reassess their distribution model of examiners for thesis examinations, as their knowledge of the field often falls by the wayside.
Kursusmoduler
No courses held
Action points/planlagte tiltag
In the semester start presentation, more focus should be on an oral or written reconciliation of expectations with the supervisor and how this can be used in practice to minimize the risk of collaboration issues.
