WHO AM I?

I am 22 years old and live in Aalborg East. I enjoy spending my free time on volunteer work. Currently, I am the vice-chairperson at ESS, and I have previously served on the board for Basis Baren. I love being actively involved in the community around me, which is why I'm running for the Study Board and Academic Council.

WHY VOTE FOR ME?

I have been actively involved in various volunteer organizations during my time at the university. This has provided me with insights into the social and academic aspects of university life. Personally, I have experienced that pressure was put on students to find replacements for courses that were no longer available, even when it was the university's responsibility. I aim to prevent this from happening to other students. My involvement in ESS, in particular, gives me contact with most of the same students I will represent, which gives me knowledge of how certain decisions will affect their studies. With this, I will easily be able to present and help solve their concerns and problems in the Study Board and Academic Council.
