

Study board conclusions of the semester and teaching evaluation report

Year:	2019
Campus	Copenhagen
Semester	SMC9
Coordinator:	Stefania Serafin
Date:	April 15, 2020

This document represents the public version of the evaluation of the semester. The document forms together with the semester and teaching evaluation report the basis of any adjustments to the semester's description, planning, execution and/or evaluation of the next iteration of the semester and are used by the coming semester coordinator and semester planning group.

The document also represents the study board's response to the students, teachers, coordinators and other interested parties about possible consequences of conditions that the students of the semester have pointed out.

The public conclusions and recommendations of the semester coordinator

Next time we should make sure that also students from internships fill the evaluation, since only 4 students participated to the survey, which is obviously very limited. We need to find a way to engage more also the students who stay on campus, while taking care also of the first semester students, as well as Medialogy and of course our own other tasks.

Conclusion of the study board

The Study Board (MSN) has processed the semester evaluation report and offers the following observations/conclusions:

- Student survey response rate: 4/12 – quite low but unfortunately not uncommon for 9th semester evaluations. Please consider making responding to survey an element in the semester startup in the following semester (SMC10). MSN is also considering how internship evaluations might be run differently from normal semesters
