

How and when to apply

How to apply

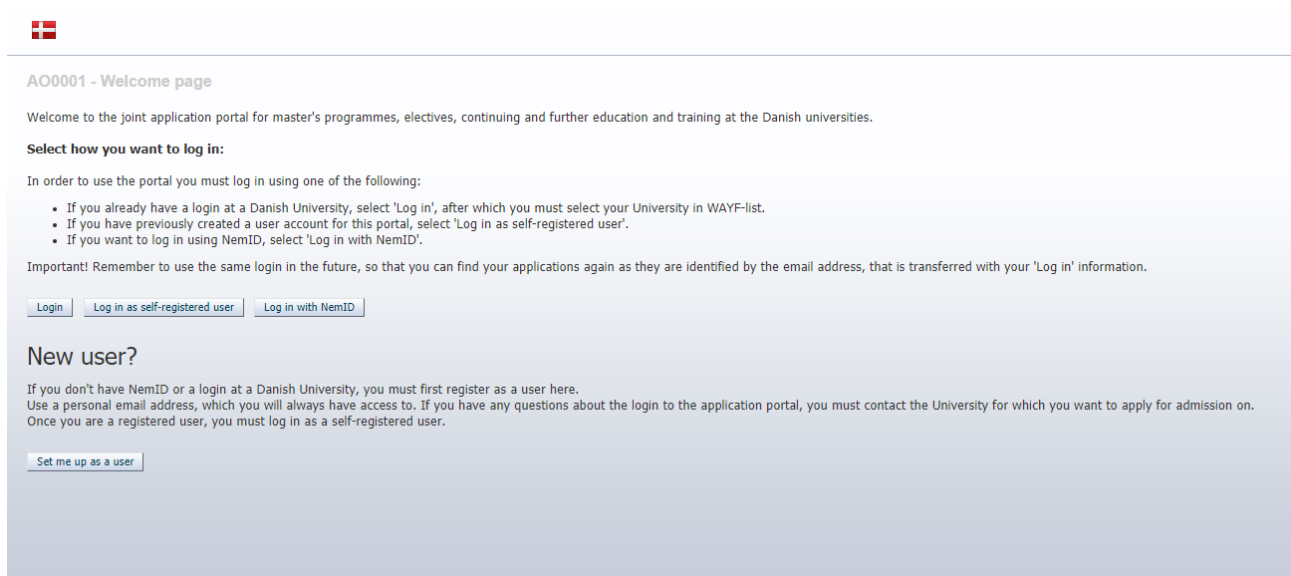

Applications for Master's programmes must be submitted in the Danish application portal. You need to create a profile in the application portal in order to submit your application(s) for the study programme(s) of your choice.

Please note: You are responsible for keeping yourself updated on the status of your application by often logging into the application portal and by reading and responding to any new messages.

How to login to the Application Portal

When you have entered the [Application Portal](#) you can choose three different ways to login.

The screenshot shows the 'AO0001 - Welcome page' of the Danish application portal. It features the Danish flag at the top left. The main heading is 'AO0001 - Welcome page'. Below this, it says 'Welcome to the joint application portal for master's programmes, electives, continuing and further education and training at the Danish universities.' The section 'Select how you want to log in:' follows, with instructions: 'In order to use the portal you must log in using one of the following:'. A bulleted list provides three options: 1. 'If you already have a login at a Danish University, select 'Log in', after which you must select your University in WAYF-list.' 2. 'If you have previously created a user account for this portal, select 'Log in as self-registered user'.' 3. 'If you want to log in using NemID, select 'Log in with NemID'.' An important note states: 'Important! Remember to use the same login in the future, so that you can find your applications again as they are identified by the email address, that is transferred with your 'Log in' information.' Three buttons are visible: 'Login', 'Log in as self-registered user', and 'Log in with NemID'. Below this is the 'New user?' section, which says: 'If you don't have NemID or a login at a Danish University, you must first register as a user here. Use a personal email address, which you will always have access to. If you have any questions about the login to the application portal, you must contact the University for which you want to apply for admission on. Once you are a registered user, you must log in as a self-registered user.' A single button 'Set me up as a user' is located at the bottom of this section.

Login – only for applicants currently studying at a Danish University. Here you log in if you have an active login to a Danish university.

Log in as self-registered user – use this if you already created a user and password in the Application Portal via **Set me up as a user** (see how to set up an user below).

Log in with NemID – if you are a Danish residence you can login with your Danish NemID. If you encounter an error from NemID, you can create a 'self-registered' user via **Set me up as a user** (see how to set up an user below). Please note that you cannot use MitID to log in.

Please note that it is important that you always login to the Application Portal the same way!

How to set me up an user in the Application Portal

If you cannot login with **Log in** or **Log in with NemID** you can create a user by clicking **Set me up as a user** and you will be transferred to this page:

How to create an application in the Application Portal

When you have logged in to the Application Portal, you can create an application. In the section **Create application** you can search for the programme to which you want to apply. First, choose Aalborg University as institution name and type of education. Then click **search**. It is important that you leave **Education name** and **start of study from** blank.
