# agenda

1. Archival concepts
2. Problems with digital archival records
3. New archival principles

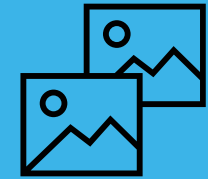

114,000 requested items in the reading room

15,000 visitors reading room

85 miles of paper

15 million photographs

300,000 maps and drawings

1.2 PB digital data

**Rethinking the archive  
function**

550

550

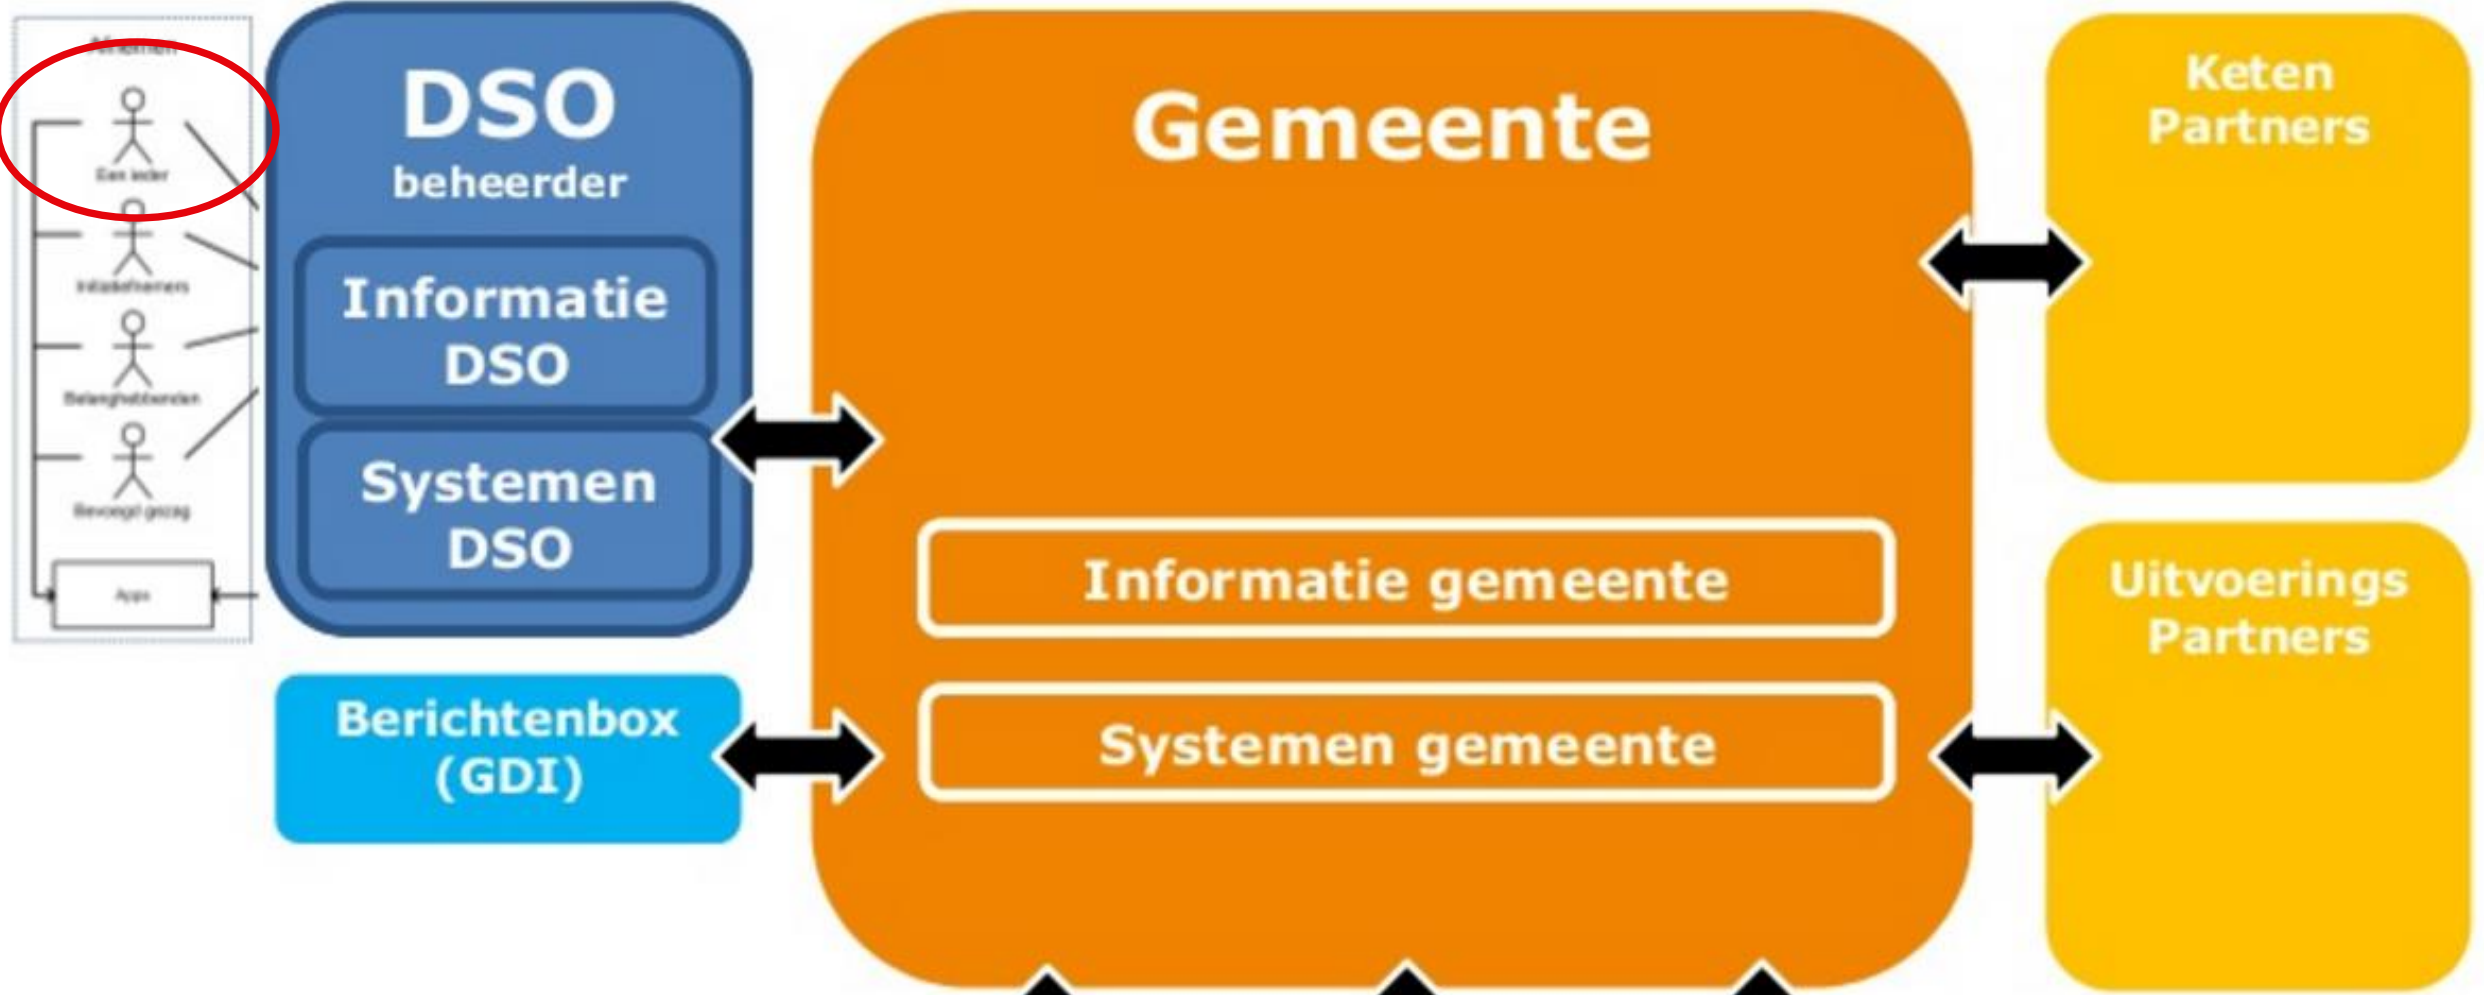

1. Records are no longer simple documents

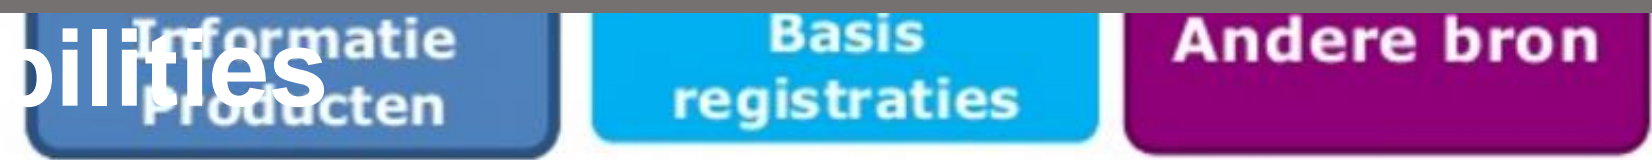

## 2. Disposal of digital records proves difficult

### **3. Chain computerisation obscures responsibilities**

### 3. Chain computerisation obscures

capabilities

A white van with its rear doors open, showing stacks of cardboard boxes in the cargo area and blue storage bins in the lower section. The van is parked outdoors, and the interior is illuminated by overhead lights. The text "4. Transfer of digital records is sometimes difficult" is overlaid on the image in a white font on a dark grey background.

**4. Transfer of digital records is sometimes difficult**

**1. The archival function should be based on the use of information – now and in the future**

**2. The archival function should be implemented by design**

# Digitaal Stelsel Omgevingswet (DSO)

## Beveiliging & Privacy

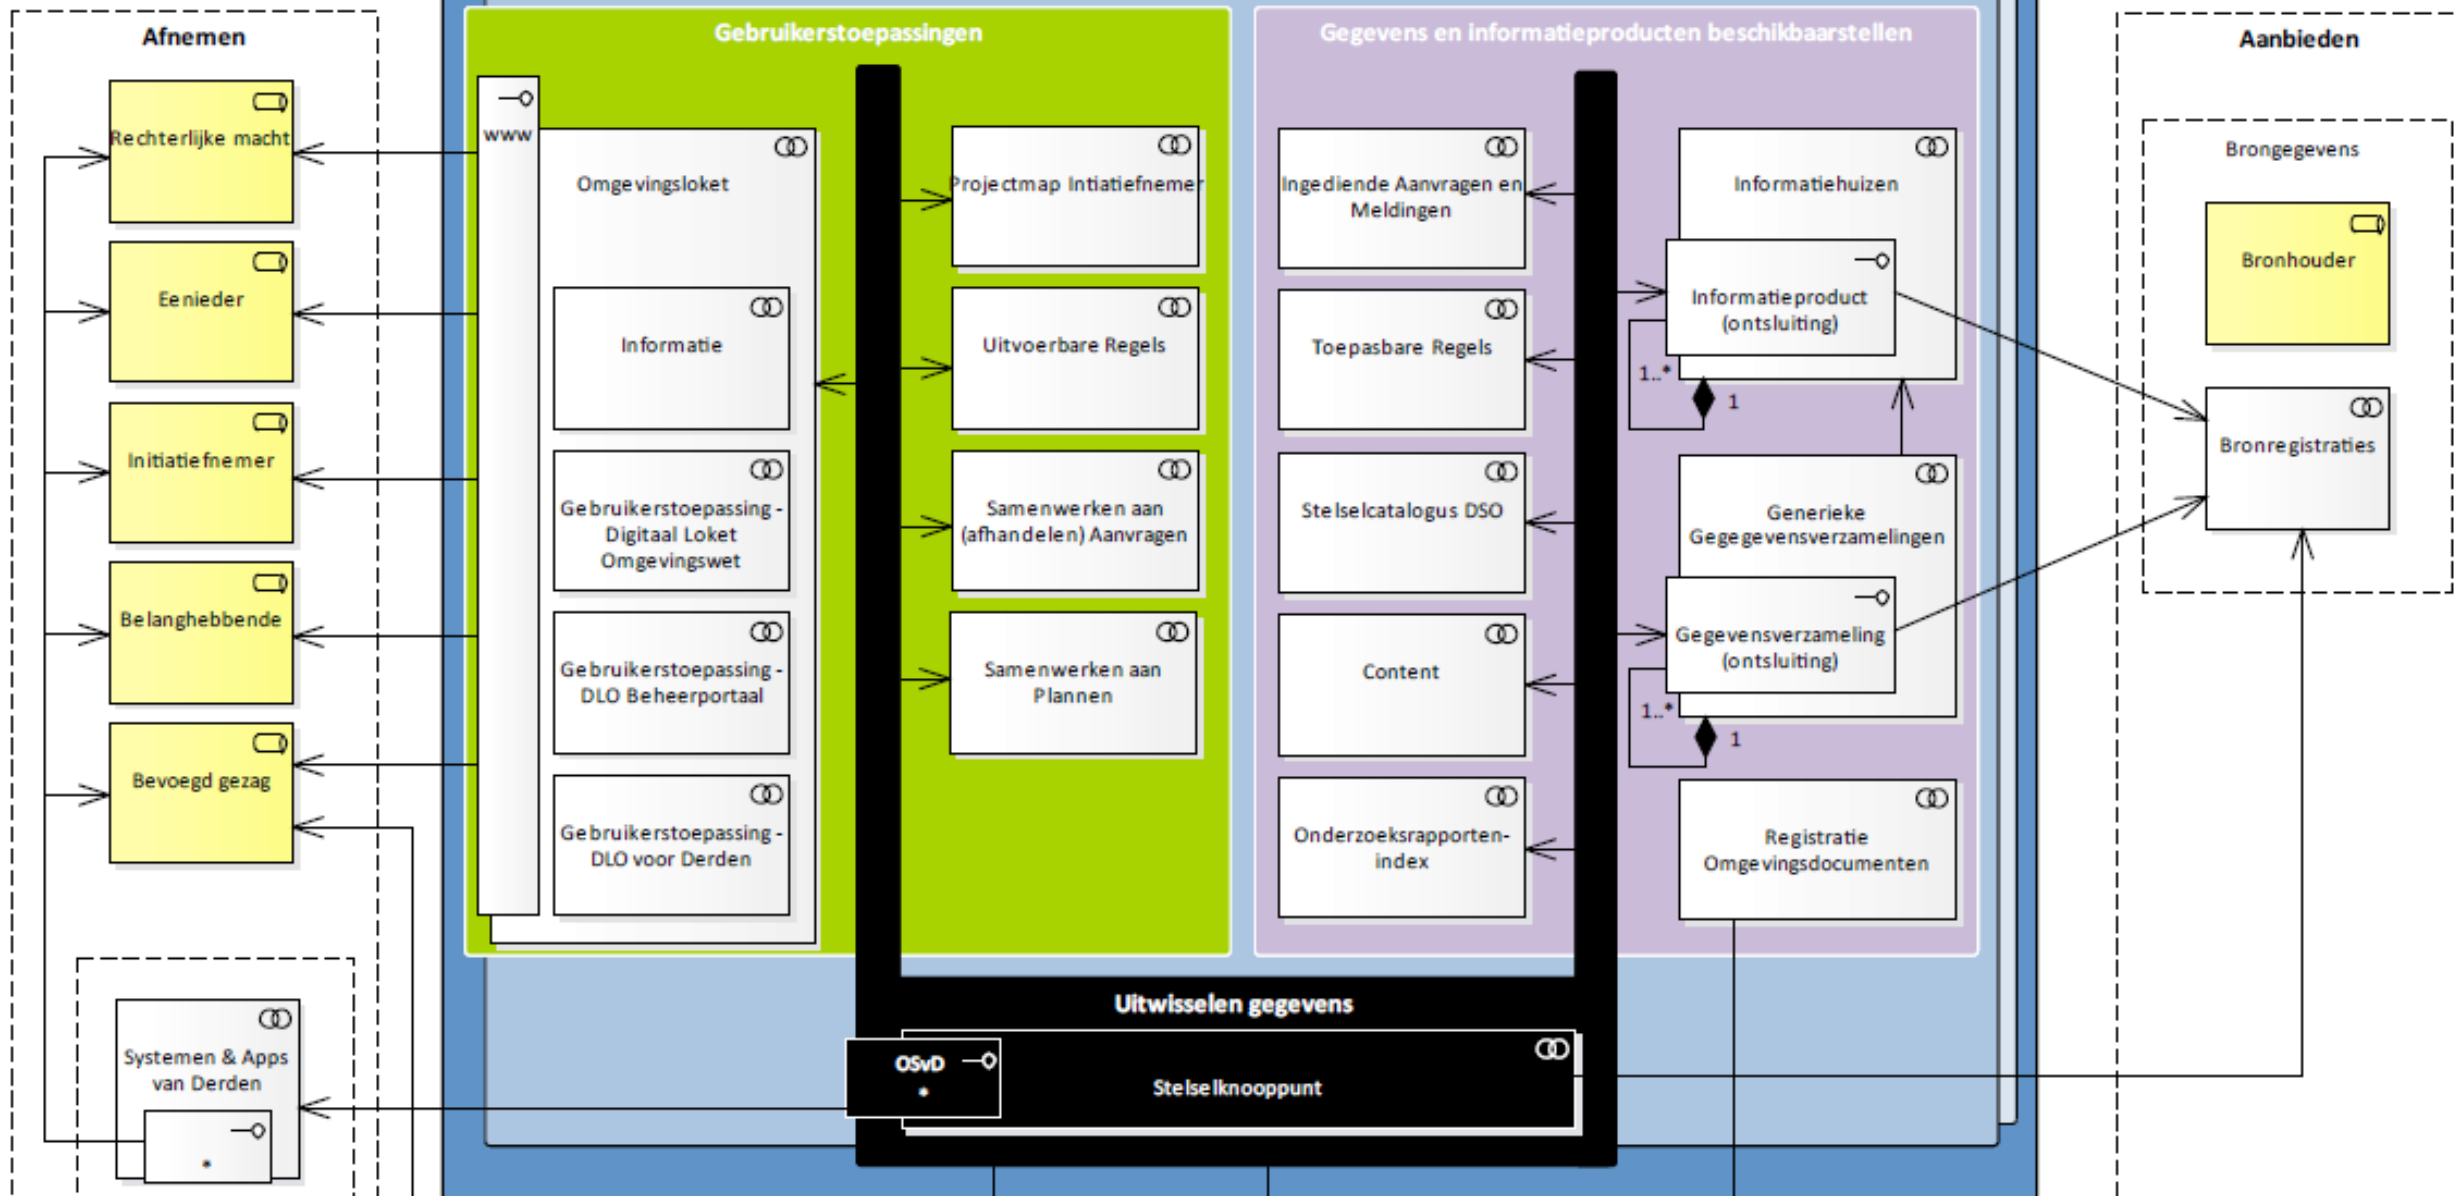

### Beheer

#### Gebruikerstoepassingen

#### Gegevens en Informatieproducten beschikbaarstellen

#### Afnemen

#### Aanbieden

**3. Archiving should be pragmatic**

**4. Archiving should be possible anywhere**

Gijsbert.kruithof@nationaal archief.nl, National Archives of the Netherlands
